## Core objective

- Facilitate and guide the RES policy dialogue for the period towards 2030
- Intense stakeholder dialogue that establishes a European vision of a joint future RES policy framework

## Main outputs / results

**towards2030-dialogue** aims to provide:

- Analysis of alternative policy pathways for 2030, such as the (partial) opening of national support schemes
- Clustering of regional support schemes as well as options to coordinate and align national schemes
- Impact assessment of different target setting options for 2030, discussing advanced concepts for related effort sharing

Project coordination:

Energy Economics Group (EEG)  
Vienna University of Technology  
Dr. Gustav Resch ([resch@eeg.tuwien.ac.at](mailto:resch@eeg.tuwien.ac.at))

## towards2030-dialogue provides opportunities to...

- Launch and guide an intense stakeholder dialogue on the RES policy framework for 2030
- Contribute to the design and implementation of suitable RES policy pathways towards 2030
- Provide insights on and solutions for the establishment of 2030 (RES) targets
- Increase awareness related to consistency in RES policy with energy & climate policy making

### Past activities

### Next events

#### October 2014, CEPS, Brussels:

- Launch of stakeholder dialogue
- 1<sup>st</sup> issue paper (& background report): **How can renewables and energy efficiency improve gas security in selected Member States?**

- 10 April 2015, EUI, Florence:  
**Electricity markets and renewables integration**
- 12 May 2015, Berlin:  
**(RES) policy challenges & policy pathways**

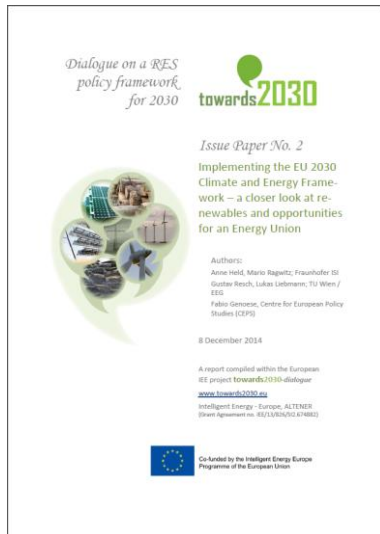

The agenda for this morning...

- Implementing the EU 2030 Climate and Energy Framework – a closer look at renewables
