Towards2030 workshop “Electricity markets and RES integration”  
Florence, 10 April 2015

“Integration is not simply about adding wind and solar on top of ‘business as usual’. We need to transform the system as a whole to do this cost-effectively.”

Maria van der Hoeven, IEA Executive Director

System-friendly RES deployment & system transformation must go hand in hand!

# Intraday markets

---

- Enhance liquidity
- Introduce intra-hour gate closure times
- Harmonise rules cross-border
- Align intraday trade with balancing trade
- Remove price caps and floors

# Balancing markets

---

- Enhance liquidity
- Introduce balancing products with lowered confidence levels and with a single direction
- Set low minimum quantity thresholds
- Establish possibility to aggregate several units spread across as large areas as possible
- Remunerate balancing services and price them efficiently
- Harmonise rules cross-border
- Align intraday trade with balancing trade
